EXECUTIVE SUMMARY

PURPOSE AND SCOPE

The Council on Postsecondary Education (CPE) and Kentucky Adult Education (KYAE) selected the Charles W. McDowell Rehabilitation Center's adult education program for a limited scope performance audit of its adult education grant. The Kentucky Office for the Blind was responsible for the administration of this grant in FY 2011. An on-site review was conducted on May 18, 2012, to address the following objectives:

- Determine whether the local program's expenditures comply with the terms of their grant agreement and reconcile to invoices submitted.
- Reconcile student and faculty data electronically submitted to KYAE through the Adult Education Reporting Information Network (AERIN).
- Determine whether the local program's professional development activities comply with the FY 2010-2011 professional development policies and procedures.
- Report internal control weaknesses identified during our audit that relate to the audit's objectives.

To accomplish these objectives, the performance audit team reviewed the Policy and Procedure Manual for Kentucky Adult Education, as well as the local program's agreement with KYAE. During the on-site review, the audit team reviewed the program's accounting records (trial balance/general ledger), interviewed program administrators regarding internal controls related to the above grants, and tested samples of expenditure documentation, participant files, and personnel files for compliance with applicable requirements.

Below is the summary of findings:

No exceptions were noted for this program.

RESULTS AND RECOMMENDATIONS

FINANCIAL REPORTING AND COMPLIANCE

Scope and Methodology

The annual expenditures for which the program requested reimbursement through the KYAE Finance Module were compared to the line item budget approved by KYAE. This comparison was used to determine whether the program's reimbursements complied with the approved budget.

The annual expenditures for which KYAE reimbursed the program were then compared to the program's internally generated financial records. This comparison was used to determine whether the program's accounting records support the total amount requested for reimbursement using the KYAE Finance Module.

Findings

No exceptions were noted.

PARTICIPANT ELIGIBILITY AND RECORD KEEPING

Scope and Methodology

To ensure an unbiased representation of the population, an automated process was used to randomly select four participants from the total population of participants provided by KYAE. The sample size was based on the determination to test 20 percent of the program's total participants, not to exceed 60. The participants tested received services during the period from July 1, 2010 through June 30, 2011.

The documentation maintained in the participant files was compared to the electronic student data to test compliance. We examined the files for the following:

- Proper eligibility documentation.
- Proper assessment testing.
- Evidence to support the achievement of goals/objectives reported to KYAE.
- Other requirements based upon the applicable program requirements.

The results of the test apply only to the selected sample and should not be projected to the entire population because the criteria tested may not be applicable to each participant.

Findings

No exceptions were noted.

PURCHASING/EXPENDITURE COMPLIANCE

Scope and Methodology

Testing was not applicable in this area because the program's grant only included funding for personnel costs.

PAYROLL AND STAFF REQUIREMENTS

Scope and Methodology

The two staff members employed by this program during the audit period were tested based on KYAE personnel requirements. Personnel files were examined to verify that staff had the proper educational credentials required for their position and the documentation of hours worked was examined for existence and approval.

Findings

No exceptions were noted.

PROFESSIONAL DEVELOPMENT REIMBURSEMENT COMPLIANCE

Scope and Methodology

Testing was not applicable in this area because the program's grant only included funding for personnel costs.

INTERNAL CONTROLS RELATING TO GRANT

Scope and Methodology

An Internal Control Questionnaire was provided to program management regarding the controls in place for expenditures, bank reconciliations, revenue, and payroll. The completed questionnaire was reviewed by the audit team for any significant control deficiencies.

Findings

No significant control deficiencies were noted.
